Who Made the Stars? Allah Made Everything: A Lesson for Kids

Name: _____ Date: _____

1 Fill in the missing word

Word bank: everything | Noticing | SubhanAllah

1. Allah created the sun, the moon, the stars and _____ in the sky.
2. _____ the world around us is a way to remember Allah.
3. Saying _____ when we see something amazing is a lovely habit.

2 Let's talk

1. How many stars do you think there are?

2. What else did Allah make that we can see at night?

3. What word can we say when we see something beautiful in the sky?

3 I practised it this week

Colour a star each day you remember to do it.

Mon	Tue	Wed	Thu	Fri	Sat	Sun
☆	☆	☆	☆	☆	☆	☆

4 Draw it!

Draw what you learned today.

Who Made the Stars? Allah Made Everything: A Lesson for Kids

1 Fill in the missing word

1. Allah created the sun, the moon, the stars and **everything** in the sky.
2. **Noticing** the world around us is a way to remember Allah.
3. Saying **SubhanAllah** when we see something amazing is a lovely habit.

2 Let's talk: what to listen for

Every child's answer will be a little different. Praise any answer in their own words that shows these ideas:

- Allah created the sun, the moon, the stars and everything in the sky.
- Noticing the world around us is a way to remember Allah.
- Saying **SubhanAllah** when we see something amazing is a lovely habit.

3 I practised it this week

No right or wrong answers. Colour the stars together at bedtime and praise the effort, not just the result.

4 Draw it!

Any picture is a good answer. Ask your child to tell you about it, and write their words under the drawing.

Try this at home

Draw a night sky and invite your child to share a question about it. Talk about the wonder they notice in the world and revisit the video’s message together. Watch at your own pace and pause whenever you want to talk. This companion activity is an idea to try together, rather than a transcript of the video.
